----- VISION -Life, death and memories are human phenomena. And we cannot escape the route that is our lives. But some people pass through life like they are floating on a peaceful lake. They encounter difficulties, but the flow of the lifestream carries them onward. That is, all of us, have memories that we treasure. That is, we ourselves have passed the test of birth, life and death, and we are carried forward. We can be certain that we have received a spiritual essence (life). ----- EQUIPPING YOUR CHARACTER - Equip various weapons, armors and magic. - Upgrading will give you power, which increases when you level up. - When you are able to equip certain items, you can also remove others. - Be sure to equip the item you will use the most when the battle commences. ----- BATTLE - Basic commands to attack and use abilities. - When you press the attack key, you will quickly perform an attack. - As you level up, your damage will increase. - When you perform an enemy attack, your basic attack will change to an attack that is more powerful than normal. - By using abilities, you will perform additional attack, and special abilities will greatly increase your basic attack. - You can choose your attack speed according to your situation. ----- MUSIC The music that you hear in the game are not your typical simple music. Since the development of fantasy games, it has been a trend to use music as a theme. Therefore, it is "action RPG Music" that changed the paradigm of interactive games. This game will be a game that is played with music and visuals, unlike most action RPGs where the experience of fighting becomes a rhythm, we are trying to connect them with a new melody. - Since we released the first title Dragon Quest, the action RPG genre has kept a growing trend of using the art of music as a theme. We have continued the trend of offering new musical elements within Dragon Quest series, and now we are trying to extend it to action RPGs in a new direction with this
