[Fantastic] ██████████ ██ █ ██████████ ██ I have been waiting for the release of the long-awaited IGM SRPG. But I just got a copy today. I'm surprised about how well the graphics stand against other titles with the same kind of graphics and how the gameplay is fun and easy. Sure, there's no voice over, but the music is pretty good, and it serves as a theme song for the game. The game is still pretty impressive, despite the criticisms that have been leveled against it thus far. The plot follows the Order of the Cold Flame, a group of elite warriors. The main character, the player's character, is a half-demon,

half-human. She has the appearance of the legendary hero (Lita) from the legend that serves as the basis for the plot. Her mysterious past and her fight to become the protagonist, for those who enjoy a good tale of mystery and suspense, is a charming game. ■ Cross-Buy on PS Vita ■ New Characters: The new character is the demon's descendant, Christine. He is the strongest and most powerful member of the Order of the Cold Flame. His magical abilities are greater than those of the traditional characters. You can also play in the New Game Plus mode, where you can experience the entire game from the beginning to the end with the same character. The new game plus is one that should be played for every IGM who is put off by the old games. ■ Characters ■ Lita Lv. 49 Prodigy Blade II, Skill IV, Demon's Mark, Protect Enchant, Dragon's Armour, Spells: Heal, Curing, Reflect, Dark, Bind, Skill Points: 100 ■ Christine Lv. 49 Blade, Skill II, Enchants: Enhance, Win, Deals a lot of damage, Skill Points: 100 ■ Apella Lv. 45 Slash Lv. 45, Skill IV, Special Attacks: Boost, Haste, Critical Boost, Skill Points: 25 ■ Sinon.
