1. Data File Remover Data File Remover is a handy utility that will help you quickly remove temporary and non-critical files that clutter your hard disk drive. The software is very easy to use, and cleans up the operating system registry and other vital files. The program supports all the supported operating systems, and can remove files, folders, and system drivers, including the Windows registry, files from the Temporary folder, and other files that are created by Windows applications. 2. Control Panel Microsoft has placed a lot of various system and user tools and utilities inside the Windows operating system. However, it seems that there is a limit to the number of these tools you can view and use within the Control Panel. Fortunately, Omega Tweaker provides us with an easy access to the Control Panel, where we can remove these elements and save valuable space. 3. Registry The Windows registry is a vital part of your system, and you need to work constantly with it. But, if you want to make your PC work much better, or run faster, or process and organize data faster, all it may take is a simple registry tweak. You can also improve your computer performance with the help of this program. 3. Startup Manager Some of the things you may not want to see at the startup of Windows are your application, downloaded games, and driver files. Fortunately, there is a solution for this. The StartUp Manager will manage your applications, updates, and games, and offer you the possibility to block them or allow them to run at start-up. 5. Computer Cleaner The Advanced Computer Cleaner is a useful tool that will assist you in maintaining your computer. It is a simple program, and you may use it to find and remove system registry and files, backup important files, and perform other tweaks. The program will check for the latest virus threats, and prevent them from infecting your computer. 6. System Optimizer It is very easy to install dozens of trial programs, and use them for a short period of time, and then uninstall them. Unnecessary applications may be a burden to your computer, and over time may slow down your computer, and even prevent you from using it at all. The System Optimizer is a highly efficient utility that will assist you in cleaning your hard drive, clear all the unnecessary and temporary files, and improve your system performance. The program supports all the supported operating systems, and enables you to perform some minor

registry and remove unwanted entries? Then this program is for you. It scans your registry, finds and removes duplicate files and folders, invalid registry entries, and other junk that may be slowing you down. It also reports on any missing application dependencies, missing and/or corrupt files and folder. This software is completely safe and will NOT hurt your computer. Installation of the free trial version is easy and just takes a few minutes. After you run the program, you'll get a list of tools that will help you manage your system. You can customize the application for your convenience using the Options menu. You can also access additional tools by selecting the Tools tab. Here, you will find one of the most useful features of this app: System Cleaner. This feature allows you to remove traces of browser and programs that you have deleted from the system. Simply select the option, and the program will scan the registry and file system to find what you have removed. After the scan is completed, the system cleaner will list the files and registry entries that have been found. You can then choose to remove them or leave them be. After this is done, the program will reboot your computer. When you launch the program the next time, it will resume where it left off and continue from where you had previously stopped. You can also access the Tools menu from the Options menu and choose the type of change you want to perform. Omega Tweaker includes the following options: • Reset • Options • File Cleaning • Tools • Restore • Performance • Status • Restore • Add-ons • Performance • Start • Logs • About • Check for Updates • Documents • Compatibility • Trash • Search • Advanced • System Omega Tweaker Requirements: Operating systems: Windows 2000, XP, Vista, 7 If you need professional level support please purchase this software. Sunday, July 15, 2007 There's a good reason that you'll find Portland's 80,000-member (and growing) Multnomah County Medical Marijuana Association (MMMA) at 503 SE Hawthorne Blvd., Suite 310, in downtown Portland. It's easy to get to, walkable to everything else and just a couple blocks from Portland Center Stage. And if you don't want to venture far, you can always grab a blue and white MMMMA T-shirt from the lobby of the John O'Connell Center (rare-as-heck used ones are around \$15). Portland's medical marijuana advocacy group is something I'd never heard of until I picked up the August PBN. The MMMA was founded in March 2004 when the Oregon Medical Marijuana Act (MMA) was
